ADJOURNMENT

Reeve Croy adjourned the June 11, 2019, Regular Council Meeting at 1:41 p.m.

 DATE REEVE

 DATE CHIEF ADMINISTRATIVE OFFICER

Property Line Spray Program

To better manage noxious weeds, prohibited noxious weeds and brush in the right-of-way ditches that cannot be effectively controlled from the roadway the County has implemented the Property Line Spray Program.

Agricultural Services will

provide a Property Line Spray Request agreement where landowners agree to:

- Allow the County to spray herbicide onto their land that is adjacent to a road ditch.
- Allow the County to enter their land to spray herbicides

outwards into the road ditches, if necessary.

- Allow the County to spray brush up to 1.5 meters in height when adjacent to a road ditch.

Weed Report vs. Weed Notice

Should a Weed Inspector discover a noxious weed, they will write up a Weed Report and inform the landowner of the weed infestation. This is not a Weed Notice. A Weed Report is offered as an informational tool to encourage landowners to control the weeds in question or to contact the Agricultural Services Department to learn more about plant management.

A Weed Notice, on the other hand, is a legal document under the Alberta Weed Control Act. A Notice will be issued if a landowner has repeatedly failed to control the weeds identified in the Weed Report. A Weed Notice is a document that, if not complied with, will lead to Clear Hills County taking control/eradicating the weeds in question with the landowner still responsible for

the costs of the control.

Under the Act, Weed Inspections, "may enter at any reasonable hour on land premises, and inspect the land or any crops, hay, etc., on the premises."

For more information contact Greg Coon, Agricultural Fieldman at 780-685-3925 or email greg@clearhillscounty.ab.ca.

Mowing For Community

Organizations

Once again, the County will offer to mow outfields and large grassed areas once annually in conjunction with the roadside mowing program.

Organizations requesting the service will be required to complete and submit a Waiver Agreement. For further details of the Community Mowing Program contact the Public Works Department at 780-685-3925.

Summer Grading

Clear Hills County provides Summer Driveway Grading for senior citizens, once per season, during the summer months. Once signed up, you must contact the County to request the service. To qualify you must be 65 years of age or over, sign a waiver and provide proof of age. For more information contact the Public Works Department.

OFF-HIGHWAY VEHICLES *Wildfire Prevention Tips*

Off-highway vehicles (OHVs) include all-terrain vehicles, quads, trikes and other vehicles designed for travelling off public roads and on unpaved trails and rough terrain. Debris falling from these vehicles can start a wildfire. You can reduce the risk of your vehicle causing a wildfire with a few simple precautions.

How OHVs can start wildfires

- ⇒ Exhaust systems heat up to temperatures in excess of 204°C - hot enough to fry an egg and start a wildfire.
- ⇒ All these temperatures, grass, muskeg, moss or other debris that has built up on your machine can heat up, smoulder and ignite.
- ⇒ The smouldering debris can drop to the ground as you're riding, starting a wildfire.

FOR MORE INFORMATION:
wildfire.alberta.ca
 PFFC.WFIO@gov.ab.ca
 1-866-FYI-FIRE

How you can prevent wildfires

- ⇒ Before you ride, clean out hot spots and remove debris from your machine.
- ⇒ After riding through muskeg, or tall grass, stop and remove any build-up from your machine.
- ⇒ Carry a small shovel, collapsible pail or fire extinguisher.
- ⇒ Wash your quad and keep it clean; do not wash in streams or creeks.
- ⇒ Make sure your muffler and spark arrestor are working properly.
- ⇒ Stop frequently. Take the time to knock debris from your machine's hot spots. If the debris is smouldering soak it, stir it, and soak it again to make sure it's out.

CHECK THESE HOT SPOTS

- 1 Exhaust and muffler
- 2 Under the seat
- 3 Wheel wells
- 4 Engine and manifold

Forest Protection Area of Alberta

Alberta's Forest Protection Area (FPA) covers approximately 60 per cent of the province's landmass. The province is responsible for managing wildfires in this area. Wildfire protection in Alberta is shared between Alberta Wildfire (inside the FPA) and the municipalities and counties outside the FPA.

Forest and Prairie Protection Act

If you're responsible for starting a wildfire, you can be charged under the Forest and Prairie Protection Act (FPPA), fined and held liable for all costs associated with fighting wildfire. All Alberta legislation, including the FPPA, can be found at the Queen's Printer— qp.alberta.ca

Contact the County's Development Officer should require assistance in completing a Development Permit Application.

If you have questions about the Land Use Bylaw regulations and how they apply to your development contact the Development Officer at 780-685-3925

Additional Permits

In addition to a Development Permit, you may also require:

- ⇒ Building Permit
- ⇒ Gas Permit
- ⇒ Electrical Permit
- ⇒ Plumbing Permit
- ⇒ Private Sewage Treatment System

For further information on these permits or regulatory information, contact one of the agencies authorized by Alberta Municipal Affairs to issue these permits at <http://www.municipalaffairs.alberta.ca/permits>

Do I need a Development Permit?

Development permits are required in Clear Hills County pursuant to the Clear Hills County Land Use Bylaw. A development permit ensures that the proposed use of the land does not conflict with surrounding uses and that the proposed development is set back the appropriate distances from the property lines and the roadways, located in a safe location (not too close to water bodies or oil and gas facilities).

When you are planning to construct a new building, structurally renovate an existing building, or change the use (or intensity of use) of your property, you will need a Development Permit.

*All Development located within 0.8km of a Provincial Highway also requires a Roadside Development Permit from Alberta Transportation.
For more information contact 780-427-2731.*

Development Permit Application

Development Permit Applications forms are available at the County office or on the County website (www.clearhillscounty.ab.ca). There is no charge for agricultural, residential and commercial development applications. There is a development penalty should you develop without an approved Development Permit. Industrial applications are \$100 for every \$100,000 of development.

For Development applications, the following information is required but not limited to:

- ⇒ Property owners signature
- ⇒ Development type, start date, completion date and construction costs
- ⇒ Site Plan
- ⇒ Floor Plan
- ⇒ Signed right of entry form

Development continued...

The Clear Hills County Land Use Bylaw also details development NOT requiring a permit. A few common ones are:

- ⇒ Any farm use building, shed, dugout (located as least 40.8m/134 feet from the road right-of-way) or minor accessory use and must otherwise conform to the provisions of the Land Use Bylaw.
- ⇒ Minor repair or maintenance to a building (providing there are no structural changes)
- ⇒ The erection or repair of a fence that is less then 1 meter (3 feet) in height in front yards and 2 meters (6 feet) in height in rear and side yards.
- ⇒ Decks (provided they have no walls or roof and are less then .6 meters (2 feet) from the ground level.
- ⇒ Accessory buildings (shed etc.) under 107.6ft² (10m²) that do not have a foundation.

PEACE PARENT LINK PRESENTS

Pop Up Playtime!

What:

Fun, hands on, developmentally appropriate activities for parents/caregivers and children ages 0-6 years. These events are offered in a location Peace Parent Link doesn't regularly attend.

Where:

Worsley– Baptist Church
Playground

When:

Wednesday, August 14th 2019
10:30am-1:00pm

A light lunch
will be
provided

This is a
FREE event!

For more information and to register:

780-624-0770

www.peaceriver.ca/parentlink

Celebrating
a Century

Many Islands

24 Sites

Open May 15 – October 15

780-835-8780

24km south east of Worsley, off of Highway 64. Kitchen, shelter, water, boat launch (on the Peace River), fishing, playground, hiking trails and horseshoes.

Home of the annual Many Islands Music Festival.

Clear River Campground

780-685-2257

Located on Highway 64 20km from the British Columbia and Alberta border.

Kitchen, shelter and water.

Carter's Camp

20 Sites

780-494-2222

Located on the banks of the Peace River 25km west of Hines Creek off of Highway 685.

Kitchen, shelter, water, boat launch, fishing, RV Station, hiking trails and playground.

Running Lake

17 Sites

780-624-6486

8km east and 22km north of Worsley.

Water, boat launch, fishing, swimming, playground and hiking trails.

George Lake

18 Sites (electrical hook ups)

780-494-3820

4.5km south of Hines Creek on Highway 64.

Kitchen, boat launch (no fishing), horseshoes, swimming, beach, hiking trails and playground.

Home of the George Lake Music Festival held annually.

Stoney Lake

20 Sites

780-624-6486

Approximately 20km north of Hines Creek.

Fire pits, lake, boat launch, fishing, swimming and hiking trails.

CLEAR HILLS COUNTY

Ole's Lake

780-595-2155

6.5km south of Highway 64 (towards Alberta and British Columbia border).

Water, boat launch, playground, fishing, swimming and hiking trails.

Sulphur Lake

20 Sites

780-624-2125

Approximately 30km northeast of Hines Creek.

Lake, boat launch, fishing, playground and RV dumping station.

Worsley RV Park

780-835-1970

Located in the Hamlet of Worsley.

Power sites with RV sani-station near campground.

Worsley Heritage Park

Located in the Hamlet of Worsley

Power sites with RV sani-station.

Cleardale OHV Park

Located east of the Hamlet of Cleardale this Off Highway Vehicle park offers a playground and camping sites with electrical hook ups.

Burnt Lee Park

Located south of Highway 685 on Highway 735.

The park offers a picnic shelter/poleshed, horse shoe pits and playing field.

The Canadian Food Inspection Agency (CFIA) is dedicated to safeguarding food, animals and plants to enhance the health and well-being of Canadians, the environment and economy.

Livestock traceability is the ability to follow an animal or group of animals during all stages of its life. There are three main pillars to livestock traceability systems:

- Identification of livestock with an approved indicator;
- Identification of premises where livestock are kept, assembled or disposed of; and,
- Reporting events related to livestock such as movement of animals from one premises to another.

The goal of the livestock traceability system is to provide timely, accurate and relevant information to reduce the impacts of a disease outbreak, food safety issue or natural disasters originating from and/or affecting livestock.

The Livestock Identification and Traceability Program (TRACE) has been administered jointly by CFIA and industry since 2001. The program is regulated and enforced under Part XV of the *Health of Animals Regulations*, made under the authority of the *Health of Animals Act*.

Livestock Identification and Traceability Program (TRACE) – Regulatory Update. N° 5 June 1st, 2019

Topic: Reporting Animal Movements

The objective of the TRACE Newsletter is to provide an overview of progress on proposed amendments to Part XV of the federal *Health of Animals Regulations* (hereafter referred to the "Regulations") that pertains to livestock identification and traceability. This fifth edition focuses on one of the key elements of the regulatory proposal: reporting animal movements.

Why are amendments to the *Health of Animals Regulations* being proposed?

The CFIA is proposing amendments to the *Health of Animals Regulations* to strengthen Canada's livestock traceability system. The proposed federal traceability regulations would require, amongst other things, reporting the animal movement to a responsible administrator for a location where, for example an animal has been received or slaughtered.

Why is reporting animal movements important?

A traceability system with information on an animal's movements from one point to another throughout the supply chain will make it easier to control the spread of disease and minimize the impact on the industry. The proposed amendments are expected to strengthen Canada's ability in responding quickly to health threats and other emergencies.

What information related to the movement of animals and carcasses is important in managing health issues?

The information needed to manage health issues and that would be required to be reported are referred to the "data requirements"; these requirements are described in the table below.

Data requirements	Rationale for making this information available
Identification number on an approved indicator applied to the animal or carcass	Movement information associated with the identity of a specific animal or group of animals allows confirmation of which animals have been slaughtered, imported or exported or may have been impacted with a health issue;
Identification number of the premises (site) of departure and of destination	Provides a geographical representation of a health issue and enables identifying where the disease may have spread;
Date and time at which animals were loaded and unloaded from a vehicle	Enables time-stamping in conjunction with animal contact information which could be used to determine the sequence at which vehicles were used and consequently improve accuracy of which sites may have been impacted by a disease outbreak;
License plate number or other identification of the vehicle's non-motorized trailer.	Despite cleaning and disinfection measures, vehicles may serve as a disease vector. Knowing their usage serves assessing where the disease may have spread.

Definitions

Animals means a bison, cattle, caprine, cervid, pig or sheep

Caprine (Goat) means an animal, other than an embryo or fertilized egg, of the genus *Capra*.

Cervid (deer, elk) means an animal, other than an embryo or fertilized egg, of the family *Cervidae*.

Community pasture means a pasture that is managed by or leased from the Government of Canada, a provincial government or a municipality, or owned by, managed by or leased from a community pasture association, a grazing association or a grazing cooperative, and where animals from more than one operator of a farm are assembled and commingled.

Domestic means within Canada

Farm means land, and all buildings and other structures on that land, that is used under one management for breeding or raising animals, but does not include an artificial insemination unit.

Reporting means providing set information to a responsible administrator (i.e. Canadian Cattle Identification Agency, Canadian Pork Council or Agri-Traçabilité Québec)

Ruminant means a bison, cattle, caprine, cervid or sheep

What would be the proposed requirements specific to animal movement? (Data requirements outlined above)

Domestic movement of animals within a farm	The movement of ruminants would not be required to be reported The current movement reporting requirements for pigs would remain unchanged.
Domestic movement of animals to a farm	The operator of the farm would report the receipt of ruminants, with the exception of cervids, at their site, namely the data requirements , within seven days of receiving the animals. The current movement reporting requirements for pigs would remain unchanged.
Domestic movement of animals from a farm	The operator of the farm would report the departure of cervids from their site, namely the data requirements , within seven days of the departure of the cervids. The current movement reporting requirements for pigs would remain unchanged.
Domestic movement of animals to a fair, an exhibition hall, or a feedlot	The operator of the fair, exhibition hall or feedlot would report the receipt of animals at their site, namely the data requirements , within seven days of receiving the animals.
Domestic movement of animals to an auction market or an assembly yard	The operator of the auction market or assembly yard would report the receipt of animals at their site within seven days of receiving the animals, namely the data requirements with the exception that instead of reporting the identification number of an approved indicator applied to the animal or carcass, the operator would report the quantity of animals received and their species.
Domestic movement of animals to a community pasture	The operator of any site from where animals are moved (with or without being loaded into a vehicle) to a community pasture would report the departure of animals from their site within seven days of the animals' departure, namely the following information: the premises identification numbers of the departure site and of the community pasture; the date the animals departed from the departure site; the species of animals transported or moved and the number of animals of each species; and the licence plate number of the conveyance (if applicable). The operator of the community pasture would be exempt from reporting movement information.
Domestic movement of animals to an abattoir	The operator of an abattoir would report the slaughter of animals at their site, namely the data requirements , within seven days of slaughtering the animals.

Definitions

Animals means a bison, cattle, caprine, cervid, pig or sheep

Caprine (goat) means an animal, other than an embryo or fertilized egg, of the genus *Capra*.

Cervid (deer, elk) means an animal, other than an embryo or fertilized egg, of the family *Cervidae*.

Community pasture means a pasture that is managed by or leased from the Government of Canada, a provincial government or a municipality, or owned by, managed by or leased from a community pasture association, a grazing association or a grazing cooperative, and where animals from more than one operator of a farm are assembled and commingled.

Domestic means within Canada

Farm means land, and all buildings and other structures on that land, that is used under one management for breeding or raising animals, but does not include an artificial insemination unit.

Reporting means providing set information to a responsible administrator (i.e. Canadian Cattle Identification Agency, Canadian Pork Council or Agri-Traçabilité Québec)

Ruminant means a bison, cattle, goat, cervid or sheep

	<p>Moreover, the operator would be required to report the departure of live animals from the site, namely the data requirements, within seven days of the departure.</p> <p>These requirements would apply to all abattoirs (federal, provincial or municipal inspection, mobile abattoirs)</p>
Domestic movement of carcasses to a rendering plant or deadstock collection centre	<p>The operator of rendering plant or deadstock collection centre would report the receipt of carcasses at their site, namely the data requirements, within seven days of disposing the carcasses.</p> <p>The current movement reporting requirements for pig carcasses would remain.</p>
Import, export of animals	<p>Importers and exporters would report the import or export of animals, namely the data requirements, within seven days of importing or exporting the animals. However, instead of reporting the premises identification number of a foreign location where animals were imported from or exported to, the importer or exporter would report the country and sub-division of that country (e.g. State of the United States) from where the animals were imported or exported. Date and time of loading in a vehicle at a location outside Canada would not be required to be reported.</p>

Supporting compliance for proposed requirements

Operators will not be required to use an electronic reader in order to report the identification number of an approved indicator;

Building on current provincial and federal requirements, carriers would be required to provide information to the operator of the destination on the source of animals;

Operators of a farm, a feedlot, or an agricultural fair who choose to use an electronic reader favourably reviewed by the [Canadian Cattle Identification Agency](http://www.cattle.ca) to read the identification number of an approved indicator will be required to report the identification number of indicators read on the first pass, but not those not read.

When can I comment on the proposed regulations?

Following the publication of the proposed regulations in Part I of the Canada Gazette (www.gazette.gc.ca), stakeholders will have 75 days to review and provide comment. The CFIA will review and consider all comments received prior to finalizing the regulation amendments and publishing them in Part II of the Canada Gazette.

FAMILY
FUN DAYS

MANY ISLANDS COUNTRY MUSIC FESTIVAL

July 19 - 21, 2019

Located on the Mighty Peace River
South of Worsley off Hwy. # 64

FRIDAY EVENING
Open Mic on Stage
SATURDAY
MUSIC FESTIVAL

Starts at 12:00

Musicians Register with Danae 780-834-8315 by July 5th

Wagon Rides - Kid's Activities

Food Booth available on site

Dance 9:00 p.m. music by Thick as Thieves

SUNDAY

ADMISSION

\$25/WEEKEND SINGLE PASS
\$10/WEEKEND SENIOR PASS
\$60/WEEKEND FAMILY PASS
ADDITIONAL CAMPING FEES APPLY

Float

The float is made from a two inch thick by two foot square piece of styrofoam sandwiched between two pieces of 1/2 inch thick marine plywood painted with a marine paint. The float is attached to the intake with a four to five foot length of nylon rope as shown in Figure 2. This length of rope is required to suspend the intake below the ice, so it does not freeze during the winter.

Intake

The intake shown in Figure 2 is made from a three foot length of three inch diameter rigid PVC plastic pipe. Since PVC pipe is heavier than water, it will drop the full length of the rope below the float.

During the winter, the float will freeze in the ice, but the intake will be below the ice. As water is used from the dugout, the ice and water level will continue to drop, but the intake will remain beneath the ice, protecting it from frost.

Drilling approximately 200, 1/8 inch diameter holes in rows along the pipe creates perforations that allow water into the pipe. It is recommended that screening be wrapped around the PVC pipe to prevent holes from being clogged with debris. The one pipe end is capped, and a plastic fitting is attached to the other end to connect the intake pipe.

Intake pipe

The intake pipe is made of polyethylene plastic pipe with a 75 to 100 psi pressure rating. The intake pipe either supplies water from the dugout by gravity flow to a wet well (in the case of a submersible pumping system) or directly to a jet pump. The intake pipe should be placed inside another larger pipe at both the wet well and where it enters the dugout. This additional pipe will protect the intake pipe from possible damage or collapse during backfilling of the trench.

The polyethylene intake pipe is lighter than water and will require some small concrete weights to be attached to keep it from floating near the water surface and freezing. Another option is to use old steel cable and attach it to the pipe with nylon snap ties. This method provides a more consistent weight along the intake pipe.

Another nylon rope may be attached to the intake to pull it to the shore for easy cleaning, as shown in Figure 3. The intake pipe should enter the dugout at a 45° angle to reduce the risk of kinking the intake pipe when it is pulled to shore for cleaning.

The size of the intake pipe will depend on the required flow rates of the pumping system. The general rule of thumb for sizing the intake pipe is as follows:

Pipe Size (inches)	Pipe Flow Rate (gallons per minute)
1 1/4	up to 10
1 1/2	up to 15
2	up to 30

Figure 2. Float suspended intake.

Figure 3. Plan view of float suspended intake.

Dugout aeration

The dugout aeration line should be installed in the same trench as the intake pipe, to protect it from freezing. Install the air diffuser away from the water intake, so bubbles will not be drawn into the water intake pipe. If bubbles are drawn in, air locks can be formed in the pipe, which will reduce or stop the water flow.

Wet well

A wet well is usually required beside the dugout to permit easy access to the pump. The water flows by gravity through the intake pipe and into the wet well as water is pumped from it. For many years, two to three foot diameter steel culverts were used for wet wells. Large diameter wells allow for settling of solids to take place.

However, recent monitoring of these installations has shown that the dissolved oxygen levels are much lower in the wet wells than in the dugout water. The reasons for this difference include the large water storage capacity of wet wells and the slow replenishment with fresh water. Wet wells, like gravel trenches, can develop problems such as hydrogen gas formation, lower pH, and a high concentration of nutrients. Therefore, six to eight inch diameter wet wells should be constructed instead.

More information can be obtained on farm dugouts by referring to the manual *Quality Farm Dugouts – Agdex 716 (B01)*.

For further information, contact an Agricultural Water Specialist with Alberta Agriculture, Food and Rural Development at the following locations:

MANY ISLANDS RECREATIONAL DEVELOPMENT SOCIETY Employment Opportunity

Many Islands Members is seeking a qualified individual for our Secretary/Treasurer board member position.

Applicants who will be considered for this position will be willing to dedicate approximately 2 hours per week during the winter months and 5-6 hours per week during the camping season (May - October). The successful candidate will be responsible for basic payroll and accounting duties, setting up monthly board meetings and taking meeting minutes, must be knowledgeable in accounts receivable and payable, and have exceptional organizational skills.

If you are interested in working with the Many Islands board, please contact Tyson Magnowski by email @ tysonmagnowski@hotmail.com or phone @ (780) 835-8780.

The agenda's, minutes and board member reports for Clear Hills County Council and Agricultural Service Board are available on the County website.

Minutes for Municipal Planning Commission meetings as well as many other forms are also available.

Check out the County website today at www.clearhillscounty.ab.ca

Community Groups & Organizations, Facilities & Contacts

Worsley & District Library

780-685-3842

www.worsleylibrary.ab.ca

Worsley & District Library, housed in Worsley Central School, offers library services to the public the following days:

Tuesday & Fridays

8:00 a.m.—4:00 p.m.

The library is also opened before school and at noon hour on Mondays, Wednesdays and Thursdays. Please call ahead to confirm that the library is open.

As this is a school, we ask that patrons check in at the school office prior to coming into the library.

Your opinion matters to us. If you have read a book that you found particularly interesting and would like to promote it, why not drop us a line and tell us the book title, author, and what was enjoyable about the book. Your comments will be included on our library webpage at the address www.worsleycentralschool.ca/Library.php as well as on our Facebook page at

www.facebook.com/worsleylibrary

We gratefully accept donations of gently used books and magazines.

Worsley Pioneer Club

The Worsley Pioneer Club hosts a Seniors Social every Wednesday afternoon from 1-4 pm.

Activities include: card games, floor curling, and more.

Join us for coffee and conversation!
